

DKBS – Show Entry System

The DKBS is now using its own registration system for all of the DKBS's owned events.

By registering for the first time, you have the option of speeding up the registration process for subsequent registrations by simply clicking on the registered dog(s).

Note 1: Show entry without registration is not possible.

Note 2: A SEPA mandate (payment) is required for each (!) registration. Show entry cannot be completed without issuing a SEPA mandate.

Note 3: The system automatically calculates the dog's age based on the date of birth and date of the show in accordance with the FCI/VDH guidelines. If you cannot register a dog i.e. in the youth class please check the age.

Note 4: The relevant documents (*pdf only) must be uploaded for the honorary class, the champion class and the working dog class. These are checked by the DKBS and the dog is then released for the relevant class.

If the proof is not received one week before the show date, the dog will be replaced in the open class.

Note 5: The DKBS naturally respects your rights in relation to the DSGVO. Please note the information during the entry options.

If you have any problems, please send an email to webmaster@dkbs.de . The DKBS will be happy to answer any further questions and/or information on request. You can find the registration system either as a link in the event or at

https://www.dkbs-meldung.de/login
